MEMORANDUM FOR THE RECORD

SUBJECT: GSA draft bill Civilian Travel Expense
Amendment Act of 1985: Action completed
by providing response to OMB

1. On 5 September 1985, I provided CIA comments to CMB (Richard Haun) on the above described bill. First, on page 3 of the bill, I suggested that the words "person serving in a national security capacity" be inserted along with the current terms describing eligibility for per diem allowances. I also indicated that with respect to section (c) on page 4 of the bill pertaining to "travel payments survey" that only non-confidential information should be collected or that the CIA should be excluded altogether.
